

SAVED FROM OPERATIONS

Two Women Tell How They Escaped the Surgeon's Knife by Taking Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn. — "For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors told me I would have to undergo an operation, but I began taking Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the Change of Life and cannot praise your Vegetable Compound too highly. Every woman should take it at that time. I recommend it to both old and young for female troubles." — Mrs. EMILY SUMMERSGILL, Swarthmore, Pa.

Baltimore, Md. — "My troubles began with the loss of a child, and I had hemorrhages for four months. The doctors said an operation was necessary, but I dreaded it and decided to try Lydia E. Pinkham's Vegetable Compound. The medicine has made me a well woman and I feel strong and do my own work." — Mrs. J. R. PICKING, 1260 Sargent St., Baltimore, Md.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

Christmas Club

THE UNION NATIONAL BANK OFFERS EASY PLAN TO PROVIDE MONEY FOR CHRISTMAS.

Everybody needs money for Christmas. Many people have trouble in providing a sufficient amount to buy all the presents needed when the time comes. The Union National Bank of this city, offers an easy plan to meet such a contingency. On June 16 it will start a Christmas Savings Club. Members will pay in a small amount each week for 25 weeks and at the end of that time will receive checks for the total amounts they have paid in. The plan is simple and systematic. There will be different classes of members. For instance, one class will start in by paying one cent the first week, two cents the second week, three cents the third week, and so on for 24 weeks, the last week's payment amounting to 25 cents. Members in this class will receive checks two weeks before Christmas, or they may reverse the order of payments by paying 25 cents the first week and paying one cent less each succeeding week which brings the last week's payment down to one cent. There will also be classes starting with two cents and five cents. Payment must be made promptly every week or in advance for as many weeks as may be convenient.

It will not only prove beneficial to grown people, but will prove very popular with young people. It is very simple and the details are easily understood when explained. Everybody is welcome to join and the Union National Bank will be pleased to have those interested call and learn all about it.

Belmont; Mrs. Maude Nathan; Mrs. Henry Villard and Mrs. William Todd Helmuth of New York; Mrs. Stanley McCormick of Boston; and Mrs. Crystal Eastman Benedict of Milwaukee, Wis.

THE CITY WATER TODAY

Subjoined is today's official report of the condition of the city water, in connection with which the city water works and sewerage board authorizes the following statement:

The board wishes every citizen to know the benefits of the pure, clear water supplied to them. It urges Clarksburgers to use it freely in the coming summer as the sewerage, dust, dirt and sulphur that find their way into the wells and surface water from which many are still drinking are of the greatest danger to the public health.

The board also wishes every citizen to know that the clear water supplied is the result of long years of experience of able men and that the board is doing all in its power to give the benefit of that experience.

Mother's Advice To Her Daughter

A Real Live Doll to Fondle Is Woman's Greatest Happiness.

One of the most important matters about which women concern themselves is their future status as a grandmother. And she is wisdom itself who knows of or learns of that famous remedy, Mother's Friend. This is an external application for the abdominal muscles and breasts. It certainly has a wonderful influence, allays all fear, banishes all pain, is a most grateful encouragement to the young, expectant mother, and permits her to go through the period of pregnancy in the most comfortable and happy manner. The action of Mother's Friend makes the muscles firm, pliant and responsive to expansion. Thus all strain and tension upon the nerves and ligaments is avoided, and a place of a period of discomfort and constant dread, it is a season of calm repose and joyful expectation.

There is no nausea, no morning sickness, no nervous twitching, none of that constant strain known to so many women, hence Mother's Friend is really one of the greatest blessings that could be devised. This splendid and certain remedy can be had at any druggist at \$1.00 a bottle, and is sure to prove of inestimable value, not only upon the mother, but upon the health and future of the child. Write to Bradford Ogilvie Co., 132 Lamar Bldg., Atlanta, Ga., for their book to expectant mothers.

The Best Medicine in the World.

"My little girl had dysentery very bad, thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her and I can truthfully say that I think it the best medicine in the world," writes Mrs. William Orrin Clark, Mich. For sale by all dealers.—Advertisement.

United States in the fiscal year which ends with the current month will aggregate twenty million dollars in value, against five million dollars in 1900 and less than one million dollars in 1890. This total for 1913 includes about sixteen millions dollars worth of leather boots and shoes, one-third of a million dollars worth of slippers and approximately two million dollars worth of boots and shoes of rubber. In addition to this, nearly two million dollars worth of leather boots and shoes went to Porto Rico and Hawaii. Meantime the importation of boots and shoes into the United States during the current fiscal year will amount to about \$250,000. The average value per pair of leather boot and shoes exported during the fiscal year 1912 was: Those for men's wear \$2.11; women's, \$1.72; children's, 7 cents, and slippers, \$1.05. The average import price of boots and shoes imported was about eighty-five cents per pair.

All the world takes American boots and shoes. The number of countries, colonies and dependencies to which the exports went last year aggregate approximately 100. Cuba is the largest buyer of this class of merchandise. The value of boots and shoes exported to that island from the United States during the fiscal year 1912, the latest period for which details of distribution to all countries are available, was practically three million dollars out of a total of sixteen million dollars worth of leather boots and shoes exported in that year. To Canada the exports in that year amounted to two and one-half million dollars; England one and one-half million; Germany practically one million; Panama three-quarters of a million; France Austria-Hungary, the Philippine Islands, and the British West Indies, each about a half million dollars; Argentina and Italy, each one-third of a million; and Brazil, a quarter of a million dollars. To all Europe the

total was four and one-half million dollars; to North America, nine million; to South America, one and one-fourth million; to Oceania, nearly one million; to Africa, a quarter of a million dollars; and to Asia, \$85,170.

The wide extent of distribution is shown by the fact that the list of countries named by the Bureau of Foreign and Domestic Commerce as the destinations of the sixteen million dollars worth of leather boots and shoes exported in 1912 was, as above indicated, nearly 100, and among them India, the Straits Settlements, China, Korea, Siam, Belgian Congo, Persia, Egypt, British, French, Portuguese and Spanish Africa, and French and German islands in the Pacific. In addition to the foregoing exports of leather boots and shoes, in the fiscal year 1912, those of India rubber amounted to \$1,502,890, distributed to about seventy countries, colonies, and dependencies. The largest values were to England, \$339,743; Australia, \$223,394; Turkey in Europe, \$146,602; and Germany, \$102,220. The other countries named in the list included India, China, Korea, British Islands in the Pacific, Liberia, Egypt, Tripoli, and Bermuda.

The imports of leather boots and shoes, which amounted to \$225,197 in the fiscal year 1912, were chiefly from the United Kingdom, \$112,954; Turkey in Europe, \$34,929; Spain, \$19,775; Canada, \$18,099; Austria-Hungary, \$12,805; China, \$6,247; Germany, \$6,170; and France, \$4,419.
